

**Silicate-substituted hydroxyapatite bioceramics fabrication
from the amorphous powder precursor obtained
from the silicate-containing solutions**

**Daniil O. Golubchikov, Tatiana V. Safronova, Vladimir A. Podlyagin,
Tatiana B. Shatalova, Irina V. Kolesnik and Valery I. Putlayev**

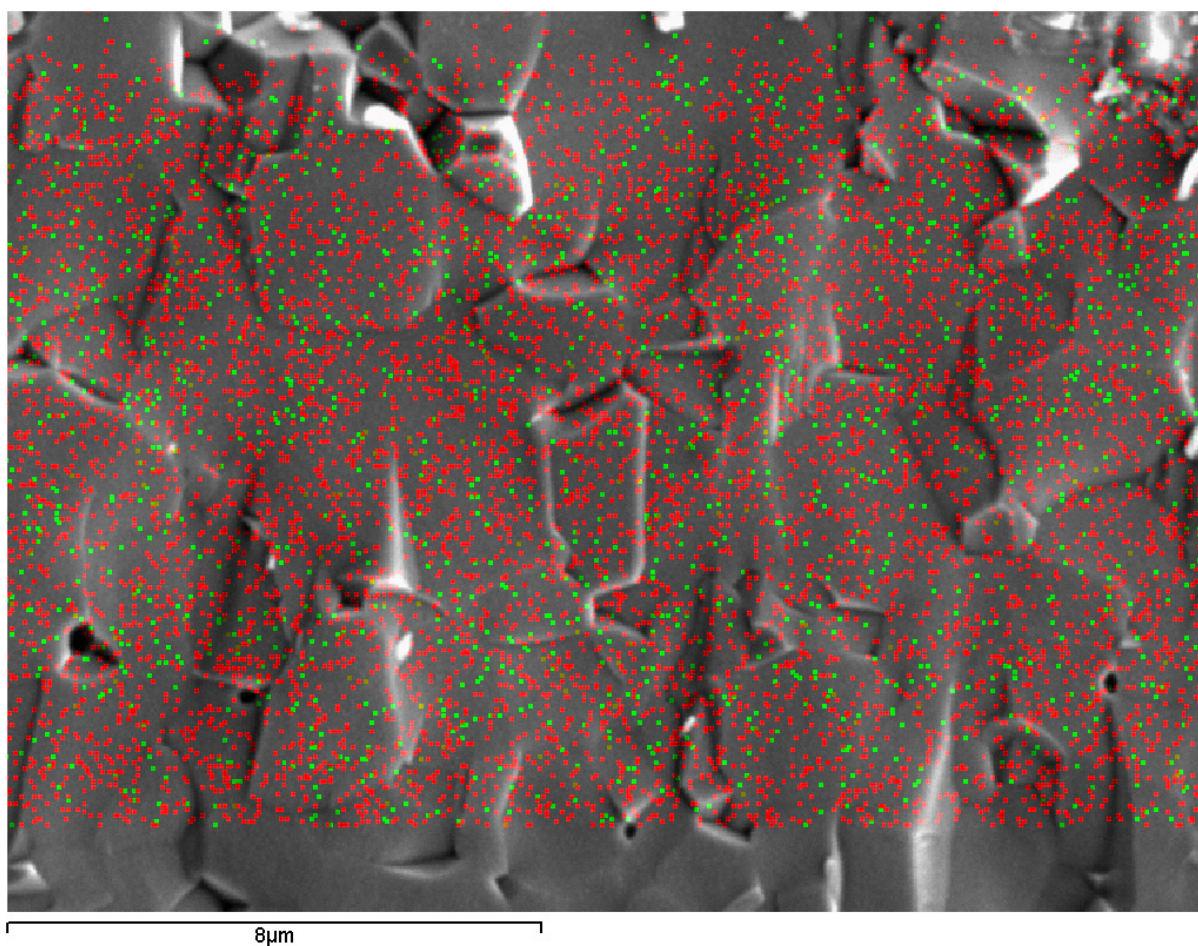

Figure S1 EDX mapping for Si-substituted hydroxyapatite bioceramics (Red dots – phosphorous, green dots – silicon).
